

COVID-19 RESOURCES

Retail

As we all navigate through the pandemic, we've recently added several new products to our distribution portfolio. Below are a few of the new products now available to students, educators, and industry professionals.

BELL COVERS

Designed to keep air particulates from escaping the instrument while not altering the pitch or the quality of sound. Made from double-layered stretch nylon and machine washable. Only available in black.

Features:

- Bell cover creates a barrier for droplets
- Double layer for blocking small particles with no measurable dB reduction
- Easy on/off application with built-in elastic to minimize air leakage

Model #	Description	Retail
CSBC5	Trumpet Bell Cover, universal for common trumpet bell sizes up to 5" in diameter	\$18.49
CSBC8	Trombone Bell Cover, universal for common trombone bell sizes up to 8" in diameter	\$21.49

CONN-SELMER FACE MASK*

Adjustable one-size-fits-all face mask designed with an opening to allow the musician to play his/her instrument while maintaining a fully functional face mask when not playing an instrument. Made from 92% poly, 8% spandex, and machine washable.

**A portion of every purchase will be donated to United Sound, a peer mentoring organization that helps students with special needs.*

Features:

- Adjustable ear loops
- Flexible metal nose piece for a more secure fit
- Deluxe double-layer fabric for blocking small particles without disrupting instrument playability

Model #	Description	Retail
CSFM1	Face mask with opening	\$9.99

RSHIELD BIOSCREEN by RATstands

The Rshield BioScreens include a range of portable and adjustable protective screens uniquely designed to reduce the spread of airborne droplets in any rehearsal, classroom, or social scene.

Conn-Selmer is the distributor of these easy to use BioScreens currently manufactured in the UK. Unlike other designs, these products are intended to encourage long-term biosafety and are made from quality components developed for multi-use within our industry.

Features:

- Height adjustable and easy-to-clean
- Stackable and portable
- Linkable at any angle
- Adaptable for any classroom layout

Desk Flag

The Desk Flag gives you all the room you need around your workspace without the feeling of being closed in. Great for classrooms and educational environments where a separation between students is important.

Full Height

Perfect for room separation and social distancing, while also being easily moveable. These screens are stackable, come with a strong steel "X" shaped base, and are 100% transparent. You will hardly even know they are there!

Short Height

Good for many different applications where you have activities that involve participants standing and sitting. Great for music classrooms and instrumental ensemble rehearsals.
